## INTRODUCTION

Metcalf Crane Services recognises the importance of ensuring that all the correct information is outlined to you as our clients.

This document provides you with the relevant information to ensure that Metcalf Crane Services have the correct documentation for the crane that you wish to engage to provide you with the equipment and services that to desire.

## PURPOSE

The purpose of this Compliance pack is to provide you with the right documentation and or information to assist you with making the right decision that Metcalf Crane Services have the right equipment and documentation required to complete the operation for you.

## GENERAL INFORMATION

Make	Terex Demag
Model	AC350
Serial Number	31212
Registration	XHW 384 (unit 34)

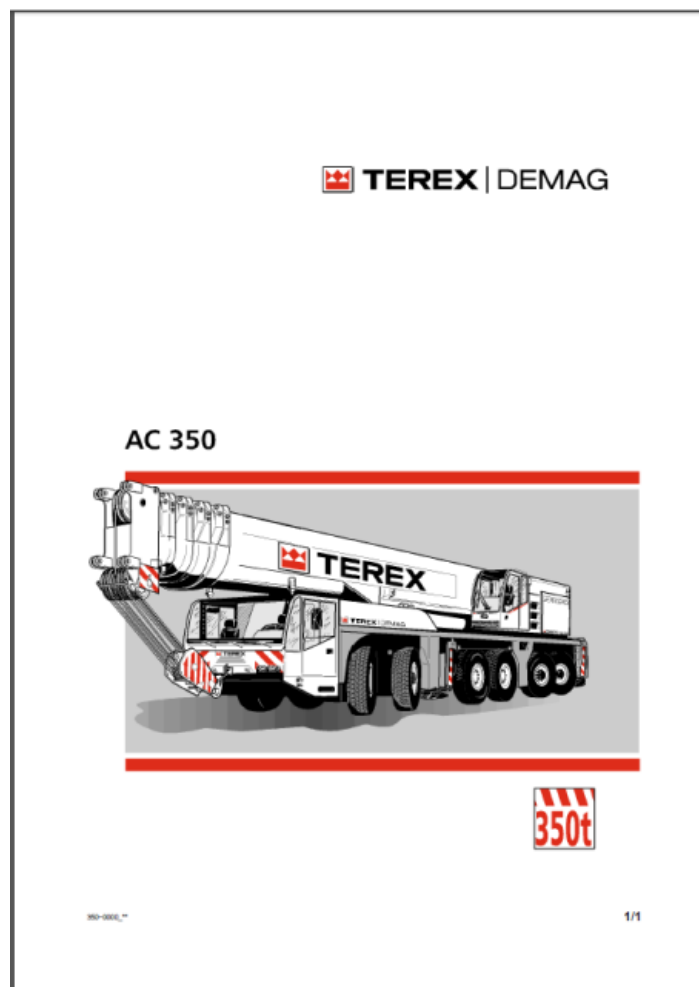

# Compliance Pack

## OPERATOR'S MANUAL

The Operator's Manual can be found within the cabin of the crane for easy reference when required.

The Metcalf office also has access to an electronic copy of the Operator's Manual. The cover of this manual is seen in Figure 1.

Figure 1

# PLANT LOGBOOK - DAILY INSPECTION

The Use of the Plant logbook is completed by the crew prior to commencing work each day/shift.

This is the responsibility of the Operator to ensure this is done. See Figures 2 and 3 for a copy of the cover page and example of the Daily inspection logbook form

## REGISTRATION OF PLANT

The Occupational Health and Safety Amendment Regulations 2014 came into effect on 1 July 2014. From 1 July you no longer required to register items of plant with the WorkSafe or re-register plant every five years.

With advances in technology, the WorkSafe is able to rely on other sources, including an extensive network of stakeholders and supplier, for information about the location of plant in Victoria, and so the registration of plant isn't as important as it once was.

Some sources that can be used to track plant equipment are VicRoads registration and the CraneSafe program (Section 8).

If Metcalf still have the crane registered with as plant through WorkSafe a copy will be here. (Figure 4)

Figure 4

## Notice of Registration

Item of Plant

Occupational Health and Safety Regulations 2007

**Plant Owner**  
Metcalf Crane Services P/L  
74-76 Freight Drive  
Somerton, VIC, 3062

Registration Date  
24/06/2014

Expiry Date  
24/06/2019

Registration Number  
PL19577785

ABN Number  
43076537749

**Plant Details**

Registration No.	PL19577785
Manufacturer	Terex Demag
Date of Manufacture	01/05/2009
Plant Design Number	V32968
Model Number	AC350
Serial Number	31212
Local ID Number	U34
Type	Mobile
Site Name	
Site Address	
Suburb/Town	
State	VIC
Postcode	
Registration Date	24/06/2014
Expiry Date	24/06/2019
Crane Type	Mobile Crane
Mobile Crane Type	Truck CMT
Boom Type	Hydraulic Extension
Slewing Type	Slewing
Luff Type	Hydraulic Cylinder

Reference Number: **R389803**

Please Note:

Registration of plant must be renewed after 5 years.

Under OHS regulation, 6.2.14, you must advise WorkSafe Victoria (WorkSafe) within 21 days if any of the following occurs:

- there has been a change of ownership of your registration plant
- your registered plant is altered to an extent which requires new measures to control risk
- your plant is normally fixed and is relocated and requires commissioning and new measures to control risk as a result of the relocation.

Note: Failure to notify WorkSafe in writing of the above can result in fines.

Retain this notice for your records

WorkSafe Victoria is a trading name of the Victorian WorkCover Authority

## MAINTENANCE INSPECTIONS AND GREEN STICKER PROGRAM

These inspections are carried out by our qualified Mechanic at approximately every 250hrs; these records are stored at the office and are available on request

The mobile crane industry initiated a voluntary crane assessment program throughout Australia. Developed in consultation with the mobile crane industry as a whole, the program aims to augment existing safety standards with annual assessments of mobile cranes now being made by CraneSafe (a division of The Crane Industry Council of Australia).

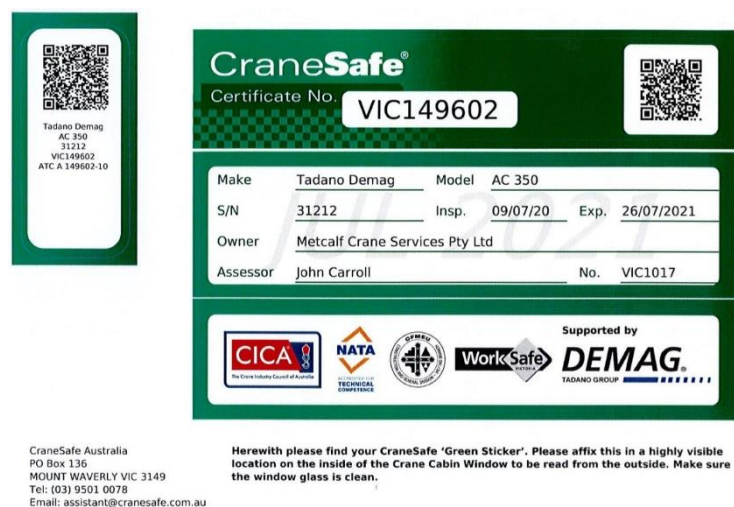

The program will provide crane owners, suppliers and users in Australia with a common industry wide system for third party assessment of the safety aspects of their cranes. The CraneSafe assessment program is voluntary and while it does not form part of any legislation or regulatory scheme, it will assist crane owners and users in Australia to meet their obligation under the OH&S (plant) regulations to ensure that their cranes are in a safe condition. The program provides crane owners and operators with a process for third party assessment of the safety aspects of their cranes that complies with the regulations of Parts 1, 3, 4, 5, 11, 19 and 20 of AS2550 for annual inspection.

All Metcalf Cranes are involved in this program and a copy of the Green sticker is provided as evidence of this. (Figure 5)

Major inspections should generally be undertaken when the crane, hoist or winch has reached the end of its design life. If the design life is unknown, in most cases, the major inspection of mechanical components should be undertaken after a maximum of 10 years of service.

This report will be attached in figure 6; NA will be added here if the Crane is less than 10 years old.

Figure 5

Figure 6 NA

## PLANT RISK ASSESSMENT

The review of the manufactures Risk assessment takes place when the plant is been purchased by the company, if the manufacture has not supplied one, Metcalf will provide one.

The RA will be reviewed periodically and in the event of a serious incident.

This RA can be found in the crane cabin. (Figure 7)

Figure 7

# Compliance Pack

## LIFTING GEAR REGISTER

The Lifting Register is maintained by Metcalf for all their lifting equipment which is a live document that can and will change on a regular basis. All lifting equipment which includes but not limited to Slings, chains and shackles will be tested to Australian Standards. This crane's lifting register is below (Figure 8)

## ENTERPRISE BARGAINING AGREEMENT

Modern awards cover a whole industry or occupation and provide a safety net of minimum pay rates and employment conditions.

Enterprise agreements can be tailored to meet the needs of particular enterprises. An agreement must leave an employee better off overall when compared to the relevant award or awards.

Enterprise agreements are collective agreements made at an enterprise level between employers and employees about terms and conditions of employment. Metcalf's EBA shows below: (Figure 12 and 13)

Australian Government  
Australian Building and  
Construction Commission

4 April 2018

Mr Paul Finnerty  
General Manager  
Metcalf Crane Services Pty Ltd  
74 - 76 Freight Drive  
SOMERTON VICTORIA 3062

**DETERMINATION OF COMPLIANCE WITH SECTION 11**  
**ABCC EA ID: EA5746**  
**FWC Matter Number: AG2016/5531**  
**FWC Variation Number: AG2017/5754**

Dear Mr Finnerty,

On 4 April 2018 you requested advice from the Australian Building and Construction Commission (ABCC) on whether the registered enterprise agreement listed in your request meets the requirements of the *Code for the Tendering and Performance of Building Work 2016* (the Building Code 2016).

This Determination of Compliance is issued for the following registered enterprise agreement because it meets the requirements of section 11 of the Building Code 2016:

**METCALF CRANE SERVICES PTY LTD AND THE CFMEU MOBILE CRANE HIRING  
INDUSTRY ENTERPRISE AGREEMENT 2016 - 2019**

Accordingly, by virtue of section 22(3) of the Building Code, this determination is taken to be conclusive of the fact that this registered enterprise agreement meets the requirements of section 11 of the Building Code 2016.

Note: This Determination of Compliance is based on the enterprise agreement registered with the Fair Work Commission at the date of this determination. If the registered enterprise agreement is varied after this date, the Determination of Compliance ceases to be effective. In these circumstances, you will need to consider submitting the varied agreement for further advice.

Parties must also comply with all relevant provisions of the Building Code 2016 in relation to their practical on-site application. The ABCC monitors behaviour on sites to which the Building Code applies and investigates any alleged breaches. The ABCC can be contacted through its hotline on 1800 003 338 or at [www.abcc.gov.au](http://www.abcc.gov.au).

The Building Code 2016 is available at <https://www.legislation.gov.au/Details/F2016L01859>.

Yours sincerely

Tom Cagorski
