Version 1.8	Oct 2018	Update lifting gear register
Version 1.9	Jan 2019	Update lifting register & Plant risk assessment
Version 2.0	Apr 2019	Update lifting gear register
Version 2.1	May 2019	Adding wire rope, winch, hook cert
Version 2.2	July 2019	Updating lifting gear register, insurance certs
Version 2.3	Oct 2019	Updating lifting gear register
Version 2.4	Nov 2019	Updating green sticker
Version 2.5	Dec 2019	Updating lifting gear register
Version 2.6	Jan 2020	Updating lifting gear register & plant risk assessment
Version 2.7	Apr 2020	Updating lifting gear register
Version 2.8	July 2020	Updated lifting gear and insurance certificates
Version 2.9	Oct 2020	Updating lifting gear register
Version 3.0	December 2020	Updating green sticker & lifting gear register

Compliance Pack

INTRODUCTION

Metcalf Crane Services recognises the importance of ensuring that all the correct information is outlined to you as our clients.

This document provides you with the relevant information to ensure that Metcalf Crane Services have the correct documentation for the crane that you wish to engage to provide you with the equipment and services that to desire.

PURPOSE

The purpose of this Compliance pack is to provide you with the right documentation and or information to assist you with making the right decision that Metcalf Crane Services have the right equipment and documentation required to complete the operation for you.

GENERAL INFORMATION

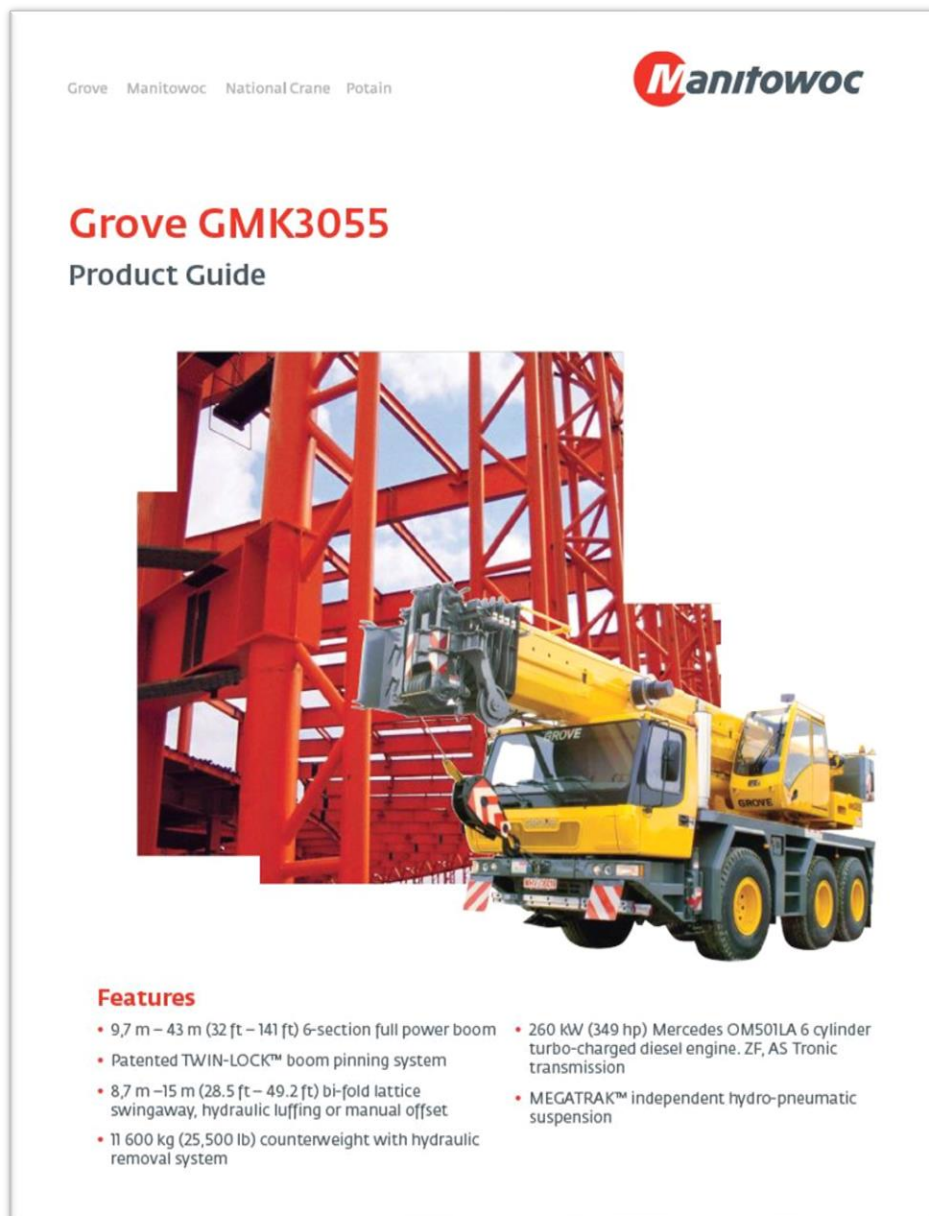

Make	GROVE
Model	GMK 3055
Serial Number	3055-9970
Registration	XV54EO (unit 54)

OPERATOR'S MANUAL

The Operator's Manual can be found within the cabin of the crane for easy reference when required.

The Metcalf office also has access to an electronic copy of the Operator's Manual. The cover of this manual is seen in Figure 1.

Figure 1

Compliance Pack

PLANT LOGBOOK - DAILY INSPECTION

The Use of the Plant logbook is completed by the crew prior to commencing work each day/shift.

This is the responsibility of the Operator to ensure this is done. See Figures 2 and 3 for a copy of the cover page and example of the Daily inspection logbook form

Figure 2

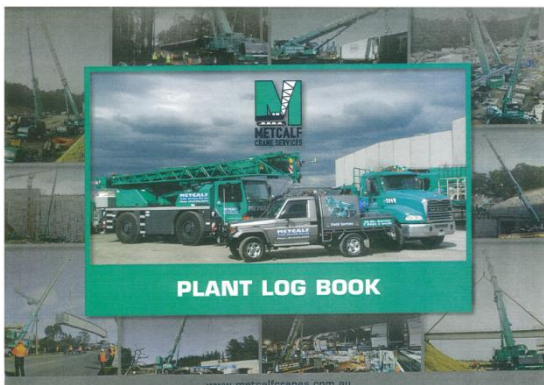

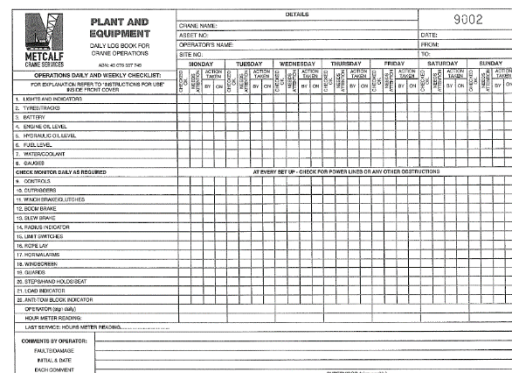

Figure 3

The form is titled 'PLANT AND EQUIPMENT DAILY LOGBOOK FOR CRANE OPERATIONS'. It includes a 'DETAILS' section for crane name, asset no., operator's name, and date. Below this is a 'DAILY CHECKLIST' with various inspection points categorized by crane type (e.g., L. CRANE, R. CRANE). The checklist is organized into columns for each day of the week (Monday to Sunday). At the bottom, there is a section for 'COMMENTS BY OPERATOR' and a 'SIGNATURE' line.

REGISTRATION OF PLANT

The Occupational Health and Safety Amendment Regulations 2014 came into effect on 1 July 2014. From 1 July you no longer required to register items of plant with the WorkSafe or re-register plant every five years.

With advances in technology, the WorkSafe is able to rely on other sources, including an extensive network of stakeholders and supplier, for information about the location of plant in Victoria, and so the registration of plant isn't as important as it once was.

Some sources that can be used to track plant equipment are VicRoads registration and the CraneSafe program (Section 8).

If Metcalf still have the crane registered with as plant through WorkSafe a copy will be here. (Figure 4)

MAINTENANCE INSPECTIONS AND GREEN STICKER PROGRAM

These inspections are carried out by our qualified Mechanic at approximately every 250hrs; these records are stored at the office and are available on request

The mobile crane industry initiated a voluntary crane assessment program throughout Australia. Developed in consultation with the mobile crane industry as a whole, the program aims to augment existing safety standards with annual assessments of mobile cranes now being made by CraneSafe (a division of The Crane Industry Council of Australia).

The program will provide crane owners, suppliers and users in Australia with a common industry wide system for third party assessment of the safety aspects of their cranes. The CraneSafe assessment program is voluntary and while it does not form part of any legislation or regulatory scheme, it will assist crane owners and users in Australia to meet their obligation under the OH&S (plant) regulations to ensure that their cranes are in a safe condition. The program provides crane owners and operators with a process for third party assessment of the safety aspects of their cranes that complies with the regulations of Parts 1, 3, 4, 5, 11, 19 and 20 of AS2550 for annual inspection.

All Metcalf Cranes are involved in this program and a copy of the Green sticker is provided as evidence of this. (Figure 5)

Major inspections should generally be undertaken when the crane, hoist or winch has reached the end of its design life. If the design life is unknown, in most cases, the major inspection of mechanical components should be undertaken after a maximum of 10 years of service.

This report will be attached in figure 6; NA will be added here if the Crane is less than 10 years old.

PLANT RISK ASSESSMENT

The review of the manufactures Risk assessment takes place when the plant is been purchased by the company, if the manufacture has not supplied one, Metcalf will provide one.

The RA will be reviewed periodically and in the event of a serious incident.

This RA can be found in the crane cabin. (Figure 7)

Unit 54 – GROVE – GMK3055

RISK ASSESSMENT

ORGANISATION: Metcalf Crane Services Pty Ltd
ADDRESS: 78 – 82 Freight Drive Somerton
PLANT DESCRIPTION: 55t All Terrain Mobile Crane
CONDUCTED BY: B. Schioppa
PAGE NO.: Page 1 of 36

ISSUE DATE: 01 January 2021
DATE OF REASSESSMENT: 31 December 2021
CRANE SAFE SERIAL NUMBER: 3055 9970
CRANE SERIAL NUMBER: 6736297
METHOD: Visual Inspection

1.	Hazard Identified (Describe the situation or parts of plant which could rise to injury or illness).	Is there any risk? (Describe the control measures already implemented to address the hazard).	Where there is a risk, describe the proposed risk control measure.	Are the risk control measures practicable? (Yes or No)	Implementation Date for the practicable risk control measures. (Modifications and Certification prior to use).
1	Persons could be injured or injure others when operating the unit without sufficient instruction, training and information.	Yes	Crane operators should hold an appropriately endorsed Certificate of Competency.	Yes	Prior to use.
2	Persons could be injured when following a poor system of work in relation to the operation of this machine.	Yes	A system of work based on the crane manufacturers operating instructions should be prepared and adhered to.	Yes	Prior to use by the hirer.

ENTERPRISE BARGAINING AGREEMENT

Modern awards cover a whole industry or occupation and provide a safety net of minimum pay rates and employment conditions.

Enterprise agreements can be tailored to meet the needs of particular enterprises. An agreement must leave an employee better off overall when compared to the relevant award or awards.

Enterprise agreements are collective agreements made at an enterprise level between employers and employees about terms and conditions of employment. Metcalf's EBA shows below: (Figure 12 and 13)

Australian Government
Australian Building and
Construction Commission

4 April 2018

Mr Paul Finnerty
General Manager
Metcalf Crane Services Pty Ltd
74 - 76 Freight Drive
SOMERTON VICTORIA 3062

DETERMINATION OF COMPLIANCE WITH SECTION 11
ABCC EA ID: EA5746
FWC Matter Number: AG2016/5531
FWC Variation Number: AG2017/5754

Dear Mr Finnerty,

On 4 April 2018 you requested advice from the Australian Building and Construction Commission (ABCC) on whether the registered enterprise agreement listed in your request meets the requirements of the *Code for the Tendering and Performance of Building Work 2016* (the Building Code 2016).

This Determination of Compliance is issued for the following registered enterprise agreement because it meets the requirements of section 11 of the Building Code 2016:

**METCALF CRANE SERVICES PTY LTD AND THE CFMEU MOBILE CRANE HIRING
INDUSTRY ENTERPRISE AGREEMENT 2016 - 2019**

Accordingly, by virtue of section 22(3) of the Building Code, this determination is taken to be conclusive of the fact that this registered enterprise agreement meets the requirements of section 11 of the Building Code 2016.

Note: This Determination of Compliance is based on the enterprise agreement registered with the Fair Work Commission at the date of this determination. If the registered enterprise agreement is varied after this date, the Determination of Compliance ceases to be effective. In these circumstances, you will need to consider submitting the varied agreement for further advice.

Parties must also comply with all relevant provisions of the Building Code 2016 in relation to their practical on-site application. The ABCC monitors behaviour on sites to which the Building Code applies and investigates any alleged breaches. The ABCC can be contacted through its hotline on 1800 003 338 or at www.abcc.gov.au.

The Building Code 2016 is available at <https://www.legislation.gov.au/Details/F2016L01859>.

Yours sincerely

Tom Cagorski
Legal Manager – Agreement Compliance
